Cross Country at Peria School was one of the high light events for this year so far. Many of our students came in the top ten of their age group. Those that did not make it in the top ten gave it their best. This is one of the main 'Values' that we promote at school, aiming for excellence. One of the greatest achievements in life is to reach your own potential. These students did this and should be very proud of this achievement.

By the time the next newsletter comes out the school would have had the Education Review Office team come and observe learning at Mangonui School. This is an opportunity for the school to have outside experts come into the school and identify things that we are doing well and also suggest ways that we can continue to improve our learning environment. They will be speaking to a range of people, observing classroom practices, checking day to day and strategic documentation. The students and staff will powhiri the Education Review Office on Tuesday the 15th September at 1.30pm.
